

BRIEFING

Scene setting for beyond 2020

Saturday, 27 August 2022, Bucharest, Romania

4.30 pm

Expected duration: 1.5 hours

Objectives of the briefing:

Provide SAICM Stakeholders, participating in the fourth meeting of the Intersessional Process considering the Strategic Approach and sound management of chemicals and waste beyond 2020 (IP4), with a Co-Chairs objectives and expectations of the IP4 meeting, proposed in session work at IP4 with a view to have one single document for consideration by ICCM5, as well as expected key deliverables of IP4.

Format:

An overview presentation by the Co-Chairs to be followed by a Q&A session.

Participation:

All SAICM stakeholders are invited to attend.

Expected outcome:

Participants have a thorough understanding of a proposed structure and flow of IP4, including which documents are the basis of discussions at IP4; how the in-session work at IP4 will be organized, how the new framework can provide vision and structure and how it can address and incorporate the work that has been undertaken during the Intersessional Process.

Participants are briefed on the IP Co-Chairs vision of the Beyond 2020 process and how this vision is transferred in the text of recommendations for Strategic Approach and sound management of chemicals and waste beyond 2020.
