

Overview of discussion groups

Session 3: elements of a successful lead paint elimination strategy

Elena Jardan, World Health Organization, Geneva

Goals of Group Discussions

Enable country participants to exchange ideas about how to eliminate lead paint in the Asia-Pacific region

Identify next steps toward lead paint elimination in specific countries

Compile next steps in a template for presentation to the workshop

Based on identified next steps, **gain an understanding of the project advice and information needed** for action in a specific country

Process of Group Discussions

- Discussion groups **arranged by sub-region/language**
- **Each group selects a facilitator and a rapporteur** to lead and report on discussions
- **Discussion questions guide the group**
- Supporting information: **SAICM lead paint project fact sheet**
- **Discussion results captured in a template**
- **Project Advisors to join discussion groups** to provide technical input or answer questions as needed
- **Discussion group facilitators present** their group's completed template to the workshop

Group Discussion Questions

1. For Background: What **steps have already been taken** toward the elimination of lead paint through the development of lead paint laws in your country or sub-region?
 - Examples: Bangladesh - paint testing by NGO; Viet Nam – recently joined the Lead Paint Alliance

 2. For Report-Out: What **opportunities for success and/or barriers**, if any, do you see and how do they affect progress toward establishment of lead paint laws in your country or sub-region?
 - Examples: Need to facilitate cooperation among relevant government ministries; Need to gain industry support for a law

 3. For Report-Out: What **next steps** toward the development of lead paint laws do you think your country or sub-region needs to take?
 - Lao PDR: convene government agency or stakeholder meeting; Fiji: establish drafting committee
